Insurance:

- The ECCAG provides insurance to protect the art work from vandalism and theft. A value must be given for all works submitted, even if it is not for sale. In the event of a loss, verification of the value of the artwork will be required. All reasonable care will be exercised in handling entries while at the Etobicoke Civic Centre Art Gallery. The gallery is not responsible for accidental breakage of glass or other fragile article damage including frames.

Terms for 2D Artwork

Hanging System: All 2D works must be framed and suitably wired for hanging on our rod and clamp system. Wall nails are not used.

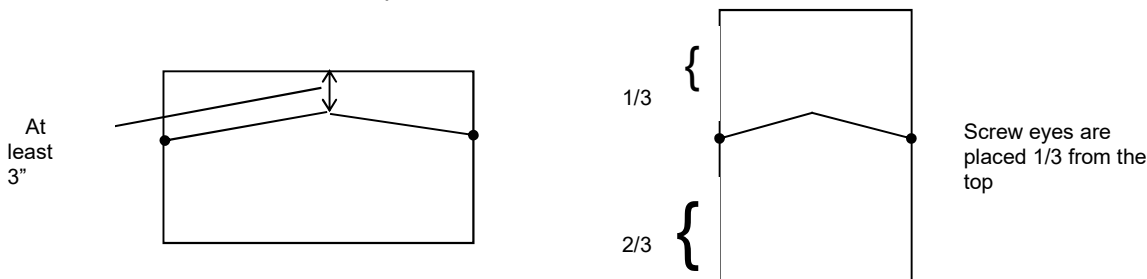

Works on Canvas: Canvas wrapped stretcher frames are acceptable. The sides/edges of works on canvas must be "finished". This is an ECCAG requirement.

Sizing: Two-dimensional works that are 16" x 20" or smaller may, at gallery staff discretion, either be double hung or placed in one of the display cases. Please check with the convener if your work exceeds 6 feet in any dimension.

Glass vs. Plexiglas: The gallery is in a busy, public hallway. All works that are not oil or acrylic must be protected either by glass, Plexiglas or a coating on the media itself. Encaustic works must be hard or coated. Any work that is deemed fragile by gallery staff or volunteers can only be displayed if a waiver is signed by the artist. Plexiglas must be used in place of glass if any side dimension exceeds 40 inches. Artists must identify on the front of the art work if Plexiglas has been used.

Wiring: The gallery has the right to reject faulty or poorly wired frames. A sufficient gauge of wire and screw eyes for the weight of the art work must be properly mounted. Single strand wire or wire substitutes will not stand up to the necessary handling. Artists are responsible for any damage caused by faulty hanging equipment.

- Textile works must have a sleeve at the top of the artwork for a support rod to go through.
- If the work is deemed fragile, the artist will need to sign a waiver upon check in.
- The ends of the wire must be covered with masking tape or equivalent, to ensure there is no potential for injury during the frame check, carrying and hanging process.
- Each artwork **must** have rings or screw eyes on both sides at the back of the frame/canvas, with the wire (in its hung position) at least 3" below the top of the frame (so that the clamp will not show). If the piece is larger, please aim to have the wire sit 1/3 from the top.

Terms for 3D Artwork

3D artwork must be able to be placed in one of our display cases. The gallery is in a busy, public hallway, and we cannot accommodate works that exceed the size of our cases. No works may be placed on the floor of the gallery.

There are six display cases. The case sizes are as follows, however works must fit within the cases:

1. 60" L x 36" W x 32" H
2. 60" L x 36" W x 32" H
3. 32" L x 16" W x 28" H
4. 30" L x 30" W x 35" H
5. 28" L x 14" W x 22" H
6. 24" L x 12" W x 18" H
